## From the Managing Director's Desk

**Rajesh Gupta**

A cruise of success always entails the qualities of insight, tactic and awareness. All these, along with the power of belief, are imbibed at the nucleus of all our operations. Our brainwave comes from the trust of our stakeholders, customers, suppliers, and shareholders who believe in our potential to deliver.

Multicolor™ Steels has acquired an incredible and diversified presence in Metal Roofing, Wall Cladding and now offers Next Generation Pre-Engineered Building systems and Steel Decking profiles across the core growing sectors. New and innovative window of opportunities are opening up and the company is geared up for an exciting future marked with important milestones. At Multicolor™ Steels, we are influenced by our rich past to take up projects in hand for the present with an objective to construct the future.

Our commitment, hard work, common sense and determination have helped the company to be at par with multinational companies in terms of standards of performance, safety & quality of projects. The journey towards distinction is stirred by what Multicolor™ Steels has always done—Deliver superior value and quality services for all those who depend on us, work with us, and invest in us.

## From the Director's Desk

**Deep Gupta**

Few years back in India, Roofing was limited to 12m long sheets. Then, we came across a challenge to provide jointless roof at 3 degree slop which is almost a flat roof. We manufactured and installed 142m long sheet for Honda car plant, which is a record in Asia. We are now using 12m to 100m long single sheets for various projects and we are coming out with more of innovative and dynamic roofing solutions for the future.

We are offering 20mm to 170mm deep profiles to our customers in the Indian market for Roofing, Steel Metal Decking and Side-Walls. We promise to offer maintenance and trouble free roofing solutions to the industry and the process of adopting latest roofing technology and innovation will never stop.

**Ashish Gupta**

We believe in continuous improvement in our company so we adapted to SAP ERP for better management of our business process TEKLA, MBS, AUTOCAD, CFS and STAAD-PRO softwares give us better designing capabilities. We have strengthen our communications with proper IT infrastructure with video conferencing facility. We will keep upgrading ourselves to serve our customer better.

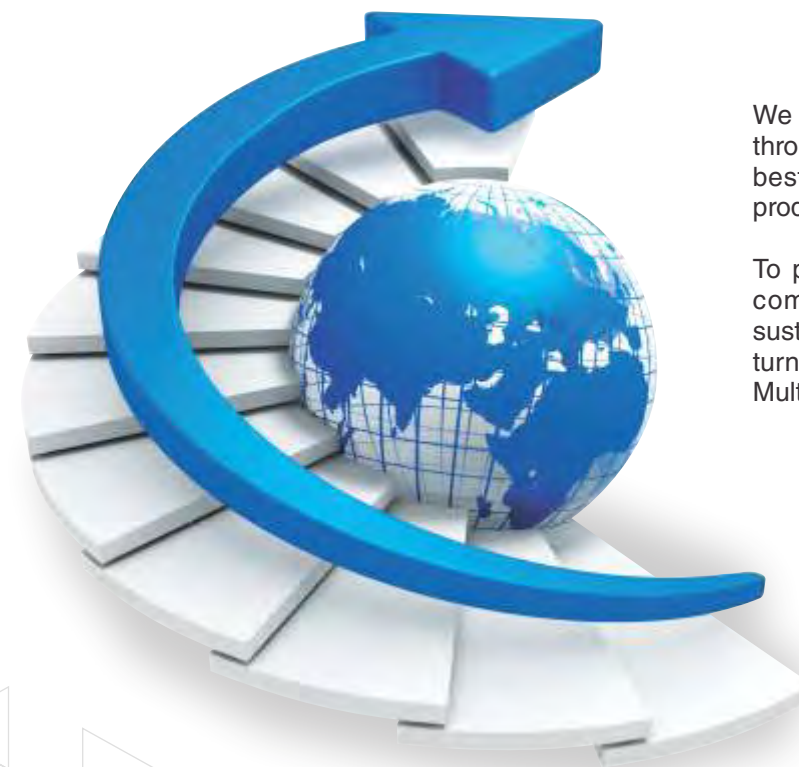

**Dipane Gupta**

# Mission & Vision

We desire to accomplish business excellence through the highest standard of ethics, assuring the best quality product & services, innovation, productivity and customer satisfaction.

To provide next generation metal building and its components to Indian industry which are sustainable, energy efficient, cost effective and in turn a good life to all people associated with Multicolor™ Steels

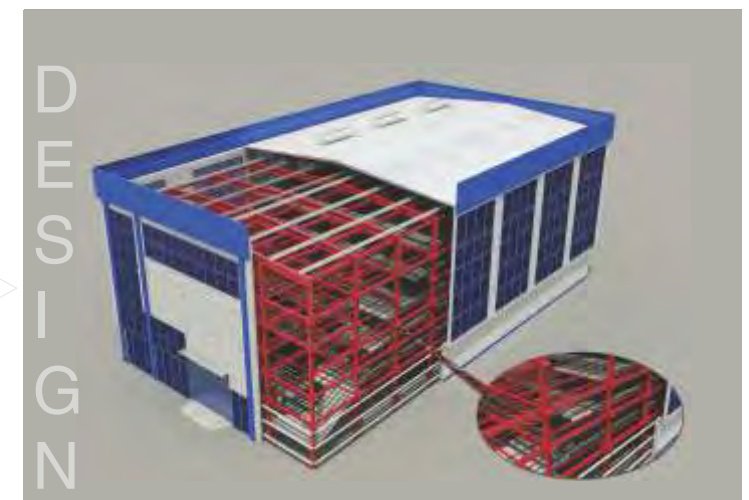

“Our motto  
has always been  
**Safety  
Speed &  
Quality**”

## Our Services

We offer complete turnkey solutions from conceptualization to designing, manufacturing and erection of Pre-Engineered Metal Buildings, Portable Buildings and components like Roofing, Wall Cladding, Floor Decking, Sandwich panels etc. with the help of 300 technical staff and more than 1000 workers.

Some of Our valued projects include top Indian and International names like:- L&T, Yamaha, Ford, SMCC, Takenaka, Tata Steel, Tata Motors, Hero Motors Corp, Maruti Suzuki, Honda Motors, TVS, Vedanta, Moser Baer, Samtel, Pepsi, Coca-Cola, DLF, Samsung, Panasonic, Ashok Leyland, L.G Electronics, Vizag Steel, JSW, Jindal Steel Group, Bhushan Steel to name a few and leading PSU & Government sector clients like Indian Railways, CPWD, Defence, NTPC, BHEL and many more.

Our products have also been exported and well accepted in other countries.

## A Saga Written in Steel

Multicolor™ Steels has been a pioneer leader in India in the field of Metal Roofing and Wall Cladding systems since 1994. Having installed over 7 million square meters of metal roofing systems in over 500 projects all over India, the company now offers complete range of products & services for Steel construction including Next Generation Pre-Engineered Steel Building Systems.

With our Head Office at New Delhi, manufacturing units at IMT Manesar and Bawal, Haryana and sales exceeding 40 million US\$, Multicolor™ Steels is further expanding with ambitious growth plans.

# Our Journey so far...

Multicolor™ Steels, ever since the advent of Color Coated Steel sheets in India in early 90's, embarked on a mission to change the landscape of industrial estates with beautiful industrial buildings clad with colorful steel sheets.

We started as a specialized company in 1994, providing complete services of design, erection of color coated metal roofing & wall cladding system in the Indian market, supported by Blue Scope Steel, Australia. In late 90's, we started promoting Pre-Engineered Buildings supported by Butler USA.

We started our own manufacturing unit at IMT Manesar in 2002 to offer variety of roofing sheets and other metal components. In the year 2013, we commenced production of Next-Generation Metal Pre-Engineered Building in the brand name of Multi-Star from our new plant at Bawal, Haryana.

Gradually adding more and more products, we developed a complete portfolio of Metal roofing Systems, Steel decking, Insulated Panels, Prefabricated Cabins, Purlin, Ventilation systems etc to offer complete range of Metal Building Products from one single source to fulfill all the needs of a project.

Over a period of time, we developed the expertise and capabilities to offer a wide variety of products & services to supply, erect and maintain World class Metal Buildings.

We have well equipped modern production facilities and a team of experienced, qualified Engineers & Technicians who translate the ideas & dreams into real Buildings that are strong, durable, safe, secure, beautiful & aesthetic.

We ensure long term association with our customers by providing good services & always get repeated orders from most of our customers.

Multicolor™ Steels is the first to Install site formed single length roofing sheets >100 meters.

We are the first in India having formed and installed up to 140mts long (earlier industry standards was 12 meters max) single metal roofing sheets without any joints for customer like **Honda car, Denso, Honda, Samsung, Moserbaer, Samtel, HindustanTimes, Balco** etc.

Our products and services are recommended for major projects of corporate, Government and semi Government by architects and consultants.

# Our Manufacturing Facilities

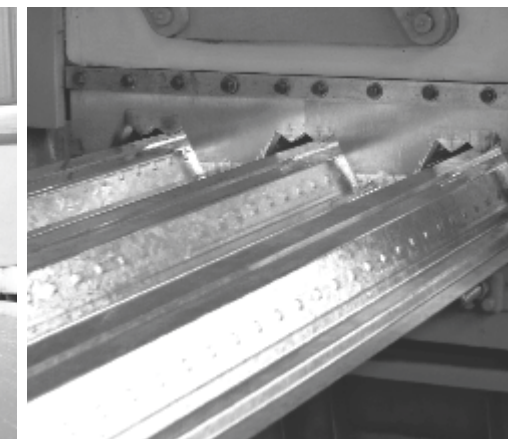

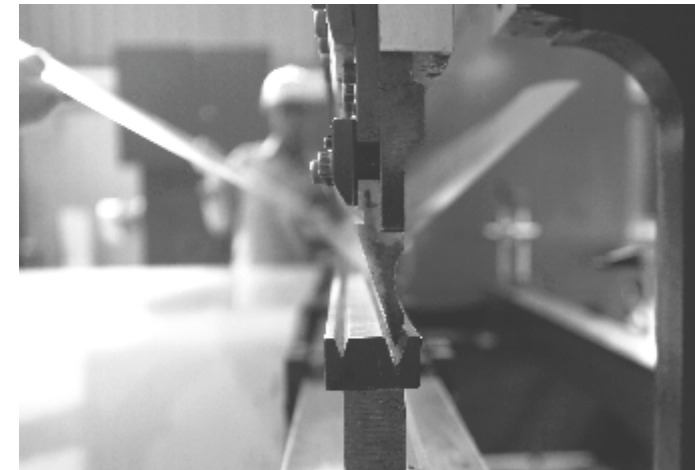

Multicolor™ Steels plant based at IMT Manesar and Bawal Haryana offer a wide range of Metal Roofing, Wall cladding, Steel Decking, Insulated Sandwich Panels, Prefabricated Cabins, Purlin sections, and Ventilation systems with production capacity of approx 75,000 ton/annum.

We have state-of-the art, CNC and fully automatic roll forming machines for various profiles which give us good quality & quantity of required profiles with less man power & less consumption of time & electricity, making Multicolor™ Steels the leading producer & supplier of Metal roofing & Wall cladding systems in India.

At Bawal, Haryana, we have already established state-of-the-art structural fabrication plant for manufacturing of PEB (Pre-engineered Building) structures and heavy structures. The world class manufacturing facility is equipped with independent automatic beam welding production lines backed up with latest automatic and semi automatic machines for cutting, hole making and welding processes with high speed, accuracy and repeatability. The plant has an installed fabrication capacity to manufacture 35,000 metric ton/annum. This standalone plant has the facility to manufacture each and every component required in a PEB Building.

# Our Customers

A team of experts works with the customers very closely from the project conceptualization stage to project completion and handover. Over the years, customers like Tata Steel, L&T, Honda, Moserbaer, Tata Motors SMCC, and Balco have imbibed their trust in Multicolor Steels and have come back year after year with repeated orders and new projects, hence creating a long-lasting relationship.

# Culture & Values

## Sustainability

At Multicolor™ Steels we set high performance target for ourselves and attempt to reach our goals. We use target information and research to strengthen our management system and sustainability.

## EHS Approach

Multicolor™ Steels is an ISO 1400:2004 and OHSAS 18001:2007 certified company. Safety, health and environment first at work place are the major concern areas.

### Environment

We believe that addressing the effects of mankind's environmental footprints, such as climate change, is imperative. Multicolor™ Steels has taken an initiative for reducing the environmental degradation by adopting:

- Environmental education and awareness raising activities.
- We adopted regular tree plantation and its maintenance.
- Water harvesting system in all our plants.
- We have adopted & also promote the use of natural light & natural ventilation system in all our plants without use of electricity.
- All our products are eco-friendly and recyclable.

### Health

Occupational health at Multicolor™ Steels has a strong focus on primary prevention of hazards, and is directed towards protecting the health of our employee and agency with which we are associated. Preventive and remedial health is provided through various training programs on health education and we aim to:

- Ensure that the health of the employee remains sound
- Expand the healthcare services to our own employee and others around us
- Extend health education, first aid health alerts etc.
- Regular counseling and advising of the employee
- Regular physical and medical checks

### Safety

The safety and health of employees, partners, suppliers, vendors, contracting agencies and service providers are a priority at Multicolor™ Steels. Safety is incorporated into our business at every step through:

- Rigorous training programs
- Regular safety checks
- Adoption of personal protective equipments
- Undertaking all work activities in a safe manner

## Our Communities (CSR)

Living upto our culture of social commitments, we use our capabilities to enhance the lives of our employee and society at large by sensitizing and providing them basic social, economic empowering facilities and other personal benefits under the aegis of Multicolor Foundation. Our effort is to spark the desire for learning and knowledge at every stage.

Multicolor™ Foundation has been set up to operate CSR activities like training Institute for Health, safety & also to promote environmental & community empowerment activities.

## Our People (HR)

We have faith in treating people in a way that develops their talents and encourage them to make the most of themselves both at work and in their personal lives. Our aim is to develop our business further by improving people's lives by giving them training, development and exciting work environment that help our employees realize their full potential.

## Our Supplier

Our suppliers play a vital role in helping us to achieve our objective. We continue to support each other in our efforts to improve the overall sustainability of the business.
